EU Directive 2011/65/EU with extension 2015/863/EU - on the restriction of the use of certain hazardous substances in electrical and electronic equipment

Dear Ladies and Gentlemen,

To the best of our knowledge, the uncoated (bare) and anodised aluminium profiles supplied by Gartner Extrusion GmbH do not contain any substances in concentrations or applications that are prohibited in products under the applicable requirements of Directive 2011/65/EU or 2015/863/EU ("RoHS").

Individual profiles use one of the exemptions for lead as defined in Annex III of EU Directive 2011/65/EU.

Exception in application:

6a. Lead as an alloying element in machining steel and galvanized steel with a maximum lead content of 0.35% by mass.

The profiles concerned are listed in **Annex A*** to this letter. All profiles not listed in Annex A comply with the requirements of EU Directive 2011/65/EU with extension 2015/863/EU without the use of an exemption.

The statements made here are based on the knowledge available to us at the time of writing this letter.

With kind regards

Gundelfingen, 20.03.2025
Gartner Extrusion GmbH

.....
Alexander Merenda
general manager

***Appendix A**

Profiles with usage exception 6a.

Profile GARTNER	Components with SVHC	Exception	Concentration
P471778 10B166HB147502	GEWINDEEINSATZ M5 X 10/8 SELBSTSCHNEIDEND	6a - Blei	≥ 0.1% w/w and ≤ 0,35% w/w
P471778 10B166HB122503	GEWINDEEINSATZ M5 X 10/8 SELBSTSCHNEIDEND	6a - Blei	≥ 0.1% w/w and ≤ 0,35% w/w
P471778 10B166HB097501	GEWINDEEINSATZ M5 X 10/8 SELBSTSCHNEIDEND	6a - Blei	≥ 0.1% w/w and ≤ 0,35% w/w
P471779 10B166HB150002	GEWINDEEINSATZ M8 X 15/12 SELBSTSCHNEIDEND	6a - Blei	≥ 0.1% w/w and ≤ 0,35% w/w
